

exAlt™ POS

Take your POS to a higher level.

Par's Exalt™ software has long been established as the fully-functional, yet affordable POS choice of quick-service leaders. Exalt's built-in flexibility, reliability and security is a direct result of more than 20 years of development specifically for QSR. A high-end software for a down-to-earth price, Exalt POS offers unparalleled POS software value.

Exalt POS. Rise above the competition by working faster and smarter.

At the point of sale, speed of service is key. You need to serve your customers quickly and efficiently. Exalt POS, which is designed to be easy to use, will get your speed of service to the highest peak.

- Intuitive touch screen
- Easy-to-read GUI
- Prep and assembly videos
- Supports cashless payment with RF-ID tags
- Versatile combo-meal functionality
- 700 direct menu item capability
- Color kitchen and assembly video with flexible routing
- Interfaces to dynamic priced up-selling modules

Exalt POS. Easy to use—for peak efficiency.

We know that employee turnover is an important training issue in the QSR industry. That's why we've designed Exalt POS to be easy to use – for peak performance at the POS and peak productivity during training.

We also know that easy to use management and reporting features allow managers to spend more time where it counts, with customers and crew. If you want your managers to be on top, Exalt POS requires little maintenance, and includes a number of easy-to-use management features and reporting options:

- On-the-fly menu maintenance and price changes
- Waste reports
- Register pre-sets
- Integration to numerous back office applications
- Remote software upgrades

Exalt POS. If saving money is at the top of your priority list ...

Security is critical. You don't want to be in the store all the time. Exalt elevates the level of security at the POS, helping you to ensure that every measure is taken to prevent loss:

- Floating till keeps track of the number of reduced checks by cashier
- Password protection
- Confirmation on drawer pulls

Exalt POS. Designed for global use with its ability to support:

- A variety of tax codes, including Value-Added Taxing (VAT), American taxing, Canadian taxing, Provincial Canadian taxing, or tax-exempt
- Any currency—with or without decimal points
- A variety of languages

Par, the largest QSR software solutions provider with over 30,000 installations in 95 countries, has the experience to bring you to the pinnacle of restaurant efficiency. Exalt is backed by Par's global support network, which includes sales, customer service and field-service offices worldwide.
